OVERALL CONCLUSION	Pending
	Pending client review and approval

Special Attention	
--------------------------	--

1. No approval sample for reference,
2. No installation instructions were found in the package.
3. The traces left by the hooks after the baking varnish was hung off the hanging holes are quite obvious, accounting for 40%. They can be clearly seen on the front of the tissue holder
4. A total of 2000 items were inspected for appearance, among which 29 were defective
5. On-site functional tests were conducted on one out of every 50 items, totaling 40. There were no actual tissue paper holders available for testing on site, so only simple manual tests were carried out to check if the products had dropped or if there were any assembly issues. The test results did not show any signs of hooks falling off or tissue paper holders dropping
